Description

- Dedicated Master Lock® 0410 safety padlock designed exclusively to be used in lockout/tagout applications
- Tough, lightweight, dielectric Zenex™ body withstands chemicals and performs effectively in extreme conditions
- 6mm plated metal shackle for corrosion resistance
- Choice of 8 colours for easy lockout identification
- Key-retaining ensures padlocks are not left unlocked
- Includes write-on “Danger” and “Property of” labels in French, English and Spanish.

- Laser engrave on up to 4 sides
- Note: Master Keyed and some Keyed Alike options are made to order. To confirm availability contact us on 1300 095 701.
