SAFETY

RID Tropical Strength Aerosol

Product Images

Description

Developed in Queensland by a Queenslander who knows we know our mozzies in this tropical state. When wearing RID, you can feel safe knowing you will be protected when exposed to the outdoor elements.

- **150g** aerosol can.
- It contains 19.5% DEET.
- It gives **6 hours of effective protection**.
- PETA-friendly, NOT tested on animals.
- It contains antiseptic and anti-inflammatory agents Triclosan and Chamomile.
- Specifically formulated to repel insects in the toughest conditions, for those requiring heavy-duty protection and long exposure times.
- Perfect for overseas travellers requiring protection against tropical diseases such as Malaria and Dengue Fever; or nationally Ross River Virus.
- Repels mosquitoes, flies, ticks, fleas and other biting insects.
