Fire Extinguisher Covers (UV Treated)

Product Images

Description

Help prolong extinguisher life with UV treated bags. Perfect for harsh environments.

Fire extinguisher UV treated bags aim to extend the life of your extinguisher. The high quality UV treated material protects your extinguisher from damaging UV rays so it is suitable for outdoor locations. It also protects your extinguisher from dusty / dirty harsh environments like petrol stations, manufacturing plants, paint rooms and kitchens just to name a few. The material is lightweight and versatile and is compatible with mounting outdoors or on vehicles.

- **Heavy Duty water resistant UV protected vinyl plastic.**
- Printed words 'FIRE EXTINGUISHER'.
- **Available in 2 sizes.** A1068 Small to suit up to 4.5kg or A1069 Large to suit 6kg to 9kg fire extinguishers.
- Dimensions: A1068 Small W310 x H550mm.
  A1069 Large W390 x H790mm.
