FirmFit™ - Corded Earplugs (100 Pairs)

Product Images

Description

FirmFit ear plugs are significantly more comfortable, provide more effective hearing protection, and exert less pressure in your ear canal than the older foam models that workers have used for years. The more comfortable the ear plug, the longer workers will wear it. That's more protection for employees and greater compliance for safety managers a win-win for everyone.

- Independent tests reveal that FirmFit outperforms the leading classic-style ear plug, providing workers with a more comfortable option.
- **40% Softer** You can feel that FirmFit is softer when you hold it.
- **29% Less pressure** FirmFit exerts 29% less expansion pressure on the ear canal.
- **Protection** SLC80 22dB provides superior protection in most medium-to-high noise environments.
- **Easier to insert** Requires less pressure to roll down. Slow recovery rate gives you have plenty of time to correctly insert into ear the canal.
- **Easier to see** Distinct warning orange color makes compliance checks easy.
- **Applications** Any noise environment 100dB to less than105dB
- Made with PVC Foam Diameter: 13.46mm (regular) Length: 19.05mm (regular) Cord Length: 685.8mm
