

Wheel Chock

Product Images

Description

Chocks are made of recycled rubber to keep them from harming tires if accidentally run over. Lighter than steel, chocks easily transport from place to place, resist fading from the sun, and are not damaged by salt and oil.

- Will not chip, rust or dent.
- Dimensions: 270(L) x 120(W) x 180(H)mm
- Weight: 3.1kg
