### Description

---

Bronson Safety's Luminous Tapes offer additional safety in the dark. Designed for low light or completely

dark areas they are charged from lighting, or from the sun, and provide up to 10 hours of illumination in the darkness offering a safe path during power outages or at night. They are ideal for staircases, emergency exits, warehouses, vehicles and areas which require added visibility. Equipped with an aggressive adhesive they are suitable for a wide variety of surfaces.
