

Lightweight Crowd Control Barrier

Product Images

Description

Bronson Safety's economy crowd control barriers are quick and easy to erect. They can be used on civil projects, construction sites, festivals and even indoors in factories and warehouses.

Product Notes:

- Easily joined to form a continuous barrier between pedestrians and potential hazards.
- Made from fully welded, galvanised steel, they are lightweight but still durable.
- Removable "low intrusion" flat feet can be bolted down if required using 4 bolts.
If wishing to bolt down we recommend the [Sleeve Anchor Bolt \(A4469\)](#) for concrete and [Road Spike \(A1543\)](#) for grass/asphalt applications.
- Dimensions: 2000(L) x 1000(H)mm
- Material: Hot Dip Galvanised
- Weight: 12.5kg

- Colour: Silver
- **Bulk stock available.**
