

# Hazchem - Eight Symbol Sign METAL 600 x 300mm

## Product Images

## Description

This eight symbol Hazchem sign allows you to indicate the storage of multiple dangerous goods and

hazardous chemicals during transport or holding.

- White background displaying eight Hazchem diamonds (four on top, four below).
- Manufactured from durable Colourbond Steel - long-lasting, great for all environments.
- Allows quick designation and identification of hazardous materials in a facility, vehicle or storage container.
- During an emergency situation, this Hazchem sign will allow emergency services to identify any chemicals present.
- It is important as a business to correctly label all hazardous chemicals using the appropriate Hazchem Signage.
- For information on Hazchem signs for transportation, read the Australian Code for the Transport of Dangerous Goods by Road & Rail, edition 7.6 – [available here](#).
- For information on Hazchem labelling and signs in a workplace, read WorkSafe Australia’s Model Code of Practice – [view here](#).

**Includes the following diamond symbols:**

- Flammable Gas 2
- Oxidising Gas 2
- Flammable Liquid 3
- Corrosive 8
- Non-Flammable Non-Toxic Gas 2
- Dangerous Goods
- Toxic 6
- Explosive 1
