

Marine Pollutant Hazchem Sign

Product Images

Description

Indicate the storage and containment of goods that are marine pollutants within a facility, vehicle or container etc.

- The sign represents a substance that would act as a marine pollutant if inadequately disposed of, and is likely to be an ecotoxin.
- Examples: Pesticides, herbicides, fertilisers, oils, sewage, and other industrial chemicals.
- Recognisable by a white background with black wording and symbols to indicate toxicity to marine wildlife.
- Sign complies to Australian Standard AS1216-2006.
- During an emergency situation, this sign will allow emergency services to identify all hazardous substances present.
- It is important as a business to correctly label all hazardous chemicals using the appropriate Hazchem Signage.
- Available in a large range of materials and sizes to suit any application.

All Bronson Safety Hazchem signage meets the requirements of Australian Government Legislation.

- For information on Hazchem signs for transportation, read the Australian Code for the Transport of Dangerous Goods by Road & Rail, edition 7.6 – [available here](#).
- For information on Hazchem labelling and signs in a workplace, read WorkSafe Australia's Model Code of Practice – [view here](#).
- For all other information, consult the Dangerous Goods Storage and Handling Regulations for your State or Territory – [click here](#).
