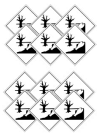
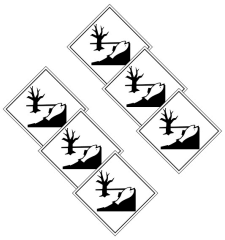
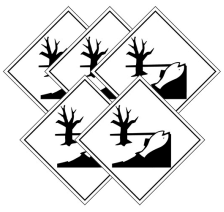
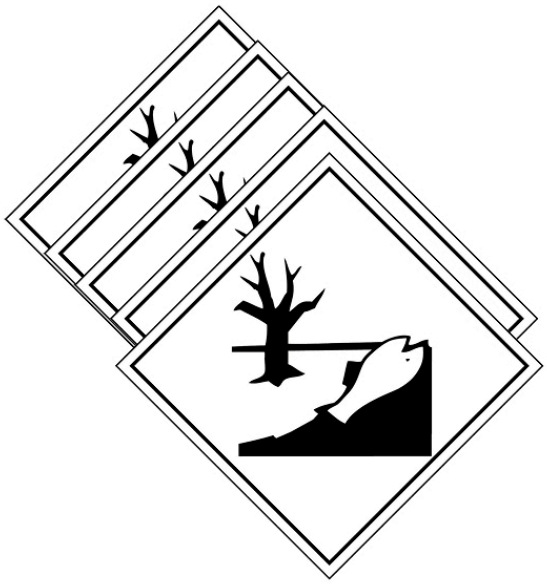
Environmental Hazard Hazchem Sign

Product Images









Description

Indicate the storage and containment of environmentally hazardous goods within a facility or container.

- Represents chemical substances that may pose a significant threat to the environment if inadequately handled and disposed of.
- Examples: Carcinogens, Anthrax, and Asbestos.
- Recognisable by a white background with a black and white symbol to indicate the eco-hazard.
- Complies to Australian Standard AS1216-2006.
- During an emergency situation, this sign will allow emergency services to identify any chemicals present.
- It is important as a business to correctly label all hazardous chemicals using the appropriate Hazchem Signage.
- Available in a large range of materials and sizes to suit any application.

All Bronson Safety Hazchem signage meets the requirements of Australian Government Legislation.

- For information on Hazchem signs for transportation, read the Australian Code for the Transport of Dangerous Goods by Road & Rail, edition 7.6 – available here.
- For information on Hazchem labelling and signs in a workplace, read WorkSafe Australia's Model Code of Practice – view here.
- For all other information, consult the Dangerous Goods Storage and Handling Regulations for your State or Territory – click here.
