

Custom Hazchem Transport Sign

Product Images

Description

Hazchem Signs help to designate and identify certain hazardous chemicals during transport in a vehicle or storage container etc.

- Allows emergency services to quickly identify all chemicals present and the hazards involved.

- It is important as a business to correctly label all hazardous chemicals using the appropriate Hazchem Signage.
- For more information on Hazchem Storage Signs and Labelling for your workplace, [see here](#).

THIS SIGN IS A SAMPLE ONLY! You have 2 options to order your custom Hazchem transport sign:

1. Call 1300 095 701 to chat with our friendly staff and order the sign legend of your choice.
2. Alternatively, use our [online custom sign form](#) to order a legend. In the form's 'description' section, specify the following points:

- Substance Name:
- Un No.:
- Hazchem:
- Diamond(s): (more than 1 diamond may be relevant)
- Specialist advice: (e.g. contact information of supplier or manufacturer)
- Please note: The section beginning "in an emergency dial 000..." will remain the same unless otherwise stated.
