

Retractable Traffic Cone Barrier Red/White

Product Images

Description

The perfect instant barrier to place on top of your traffic cone. These retractable traffic cone barriers are extremely tough and can be used extensively in both indoor and outdoor environments. Each tape unit is expandable to 9m in length and is 50mm wide. Easy to install to any standard traffic cone with no tools required. Manufactured using injection moulded, heavy-duty polypropylene material, they are solvent, corrosion, and chemical resistant and are UV rated for indoor and outdoor durability.

- **Cone mount:** 2 x Retractable Traffic Cone Barriers are required to create a barrier.
- **Wall mount:** 1 x Retractable Traffic Cone Barrier, 1 x A5205 Wall Mount Bracket and 1 x A5206 Wall Mount Receptacle are required to create a barrier.
