Cover for General Purpose Spill Kits (Yellow)

Product Images

Description

General Purpose Spill Kits provide products that are suitable for absorbing both water-based non-hazardous liquids, such as paints and coolants, as well as hydrocarbons, including oils, fuels and grease.

- These covers are a great way to preserve the contents of the Spill Kits and protect them from outside elements and substances.
- Increases the difficulty to open the kits by those who are not permitted.
- Not required, but recommended.
- Available for spill kits sized 120L and 240L only.
- Colour: Yellow
