

Cover for Hazchem Spill Kits (Blue)

Product Images

Description

Hazchem (Blue Range) are designed for most hazardous chemical spills including acids, coolants, solvents and oils. Our Oil Only (Red Range) is designed for all hydrocarbon-based liquids including fuel, oils and grease.

- These covers are a great way to preserve the contents of the Spill Kits and protect them from outside elements and substances.
- Increases the difficulty to open the kits by those who are not permitted.
- Not required, but recommended.
- Available for spill kits sized 120L and 240L only.
- Colour: Blue
