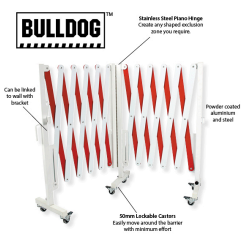
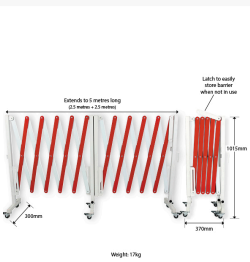
5m Bulldog™ Mobile Expanding Barrier Red/White

Product Images





Description

Combines the proven toughness and versatility of our existing expanding barriers with the added mobility of locking casters so you can easily deploy around your facility with minimum effort.

- Unique stainless steel piano hinge allows you to create any shaped exclusion zone you require.
- Uses: Control access to work zones and deny pedestrian access to unsafe areas in public places.

- Alternatively, direct the flow of foot traffic in and around cleaning and maintenance work.
- Features extruded aluminium slats and high-grade coated-steel posts.
- Powder-coated aluminium and steel finish.
- **Extends to 5 metres long (2.5metres + 2.5metres).**
- Clearance below barrier when closed/folded: 200mm, when open/extended: 400mm.
- Barrier height: 1020mm
- Barrier weight: 17kg.
- **Barrier comes complete with 3x standard base feet including 6x lockable castor wheels.**
- Optional Big Foot 500mm Wide Base Unit also sold separately. Suitable for extra stability on uneven ground or windy areas.
- Consider adding any of our thousands of signs to reinforce mandatory or prohibition messages around a facility.
- Also available in Orange/Black, Yellow/Black and Blue/White.

*Item shipped flat-packed. Minor assembly is required.
