

Skipper™ Barrier Dummy Unit (without tape)

Product Images

Description

The Skipper™ Barrier Dummy Unit allows you to attach an end clip as with a normal skipper unit, but comes without any tape. You can use a dummy as an 'end unit', where the line of tape doesn't need to go any further.

The Skipper™ Barrier Dummy Unit can attach to traffic cones and Skipper™ Post and Base System. You can also attach Skipper™ Barrier Dummy Unit directly to walls and magnetic surfaces using one of the support brackets.

Skipper is the original, market leading solution, and the choice of health and safety professionals across the world.

Connects to:

- Skipper™ 9m Retractable Barriers
- Skipper™ Post and Base System
- Skipper™ Wall Support Bracket
- Skipper™ Magnetic Support Bracket
- Skipper™ A4 Sign Holder
- Skipper™ LED Safety Light (Rechargeable)

Dimensions: 145mm (L) x 240mm (H) x 145mm(W) Weight: 400grams
