

Skipper™ Magnetic Receiver Clip

Product Images

Description

The receiver clips act as an end-point for Skipper retractable barriers, and can also be used to support the Skipper™ Recycle Bins, Skipper™ PPE Dispensers and Skipper™ Sanitiser Brackets accessories. As with the support brackets, the receiver clips are available in both magnetic and non-magnetic variants.

Skipper™ Magnetic Receiver Clips attach retracting barriers to metal surface. Simply pull out the tape from any Skipper unit and slide it into the receiver clip. This will end the barrier without using additional Skipper units, cones or posts. Skipper™ Recycle Bins, Skipper™ PPE Dispensers and Skipper™ Sanitiser Brackets can

be attached directly to the receiver clip.

Connects to:

- [Skipper™ 9m Retractable Barriers](#)
- [Skipper™ Recycle Bin](#)
- [Skipper™ PPE Dispenser](#)
- [Skipper™ Sanitiser Bracket](#)

Dimensions: 80mm (L) x 100mm (H) x 23mm(W) Weight: 60grams

As with the support brackets, the receiver clips are available in a [non-magnetic version](#) as well.
