

Hi-Vis Barrier Reel

Product Images

Description

These heavy-duty hi-vis warning tape reels are ideally suited to industrial and commercial situations where a safety barrier is required to keep people from entering an unsafe or restricted area. Ideally used to restrict people from entering warehouse roller doors, forklift thoroughfares or to section off maintenance areas, among many other uses.

- **The reel can be mounted simply on a wall or to the (A4439) Barrier Reel Bollard Post.**
- The barrier webbing can be pulled across and placed onto a hook or receiving bracket on the opposite wall or post as required.
- Designed to easily and quickly retract when access is required by trucks or forklifts.

- Polypropylene mounting bracket supplied allows 180° swivel action.
- Neat & tidy design means there is no loose webbing laying around, or need for manual recoiling.
- Under constant tension with positive rewind action.
- **Includes a handle** that can attach to the reel for easy movement from one area to the next.
- **1 x Mounting Bracket is included** with barrier reel - suitable for all mounting purposes (wall and bollard).
- **1 x Receiving bracket (A4438) is included** with the barrier reel. Additional receiving brackets are available separately.
- A specially designed [Steel Bollard Post](#) is also available (sold separately) for free-standing mounting purposes when a wall is not available in your facility.
