## Product Images

## Description

---

SpillSmart HazSorb is a loose particulate absorbent designed for Hazchem spills. It's suitable for industries and businesses such as panel shops, labs, food processing facilities, hospitality kitchens and chemical storage areas.

Product Notes:

- Available in 2 sizes: 7.5Litre or 30Litre depending on your needs.
- Made from vermiculite, it has great absorption properties and is more efficient than "kitty litter" and zeolite products.
- It is effective with Class 5 and Class 8 chemicals, most acids, coolants, solvents and oil.
- We recommend purchasing a Safety Data Sheet (SDS). As Vermiculite is inert, it is often referred to in SDS sheets as an absorbent capable of handling aggressive liquids.
- You may also combine SpillSmart HazSorb with our Hazchem Pads and Socks for added workplace protection.

\*Bulky Item. Shipping charges apply.

Other types of spill kits available:

- [General Purpose Spill Kits](#)
- [Hazchem Spill Kits](#)
- [Oil & Fuel Spill Kits](#)
- [Biohazard & Specialty Spill Kits](#)
- [Multi-Purpose Spill Kits](#)
