Dispensing Safety Can 4L Metal Type 2 (with 19mm Hose)

Product Images

Description

The demanding environment of today's laboratories require compliant safety containers designed for high chemical resistance.

- Offers additional convenience with two openings at the top.
- One opening is equipped with a flexible metal hose for smooth, accurate pouring into small apertures.
- The 19mm hose provides a bonding path to a receiving vessel.
- Second opening, positioned behind the handle, is used for filling.
- Includes a swinging handle to ease carrying a full, heavy can.
- During pouring, Justrite's unique design uses the weight of the liquid to counterbalance the pressure required to open the spout.
- Openings are equipped with full length, dual-density flame arresters which reliably dissipate heat to

prevent Flashback ignition.

- Openings self-close to prevent spillage and the rear opening automatically vents between 3 and 5 psi (0.2 and 0.35 bar) to guard against pressure build up at elevated temperatures and potential explosion.
- Heavy-duty, lead-free coated steel with reinforcing ribs and tough powder paint finish offers exceptional on-the-job durability.
- Includes a built-in Flash Arrester to stop naked flames from entering the can during either filling or dispensing. Eliminates the risk of explosion caused by a flashback.
- Container contents are fully protected from fire.
- Flash Arrester allows for increased pressure to vent off safely without causing an explosion.
- Accommodates oil additives for two cycle engines.

What is the difference between a Type I & Type II Safety Can?
The Type I Safety Can has one opening that serves for both filling and dispensing. The Type II Safety Can has one opening dedicated to filling and a second spout opening dedicated to dispensing.
The Type II Safety Can comes with an attached flexible hose and uses the AccuFlow™ manifold with Safe-Squeeze® trigger handle to provide the smooth and controlled pouring.

Justrite™ Safety Cans available;
Type 1 Laboratory Safety Cans
Type 1 Storage Safety Cans
Type 2 Dispensing Safety Cans
Plunger Dispensing Cans
Bench Safety Cans
