

Corrosives Storage Cabinet (Poly) 90L

Product Images

Description

This Justrite™ Polyethylene Corrosive Substance Storage Cabinet offer the most resistance to chemical corrosion and leaks.

- For high fuming corrosive acids such as Phenol, Nitric Acid and Sulphuric Acid.
- Cabinet is durable, compact and completely resistant to corrosion and leaks.
- Includes an application-specific label for ACID contents.
- Accepts a padlock (not included) for added security.
- Cabinet safely stores 36 x 2.5 Litre bottles or a total of 90 Litres of acids.
- Shelf adjusts on (76-mm) increments and has a load capacity of 57-kgs.
- Option of 3 x shelf positions to optimize container storage.
- A removable and sturdy sump cover (also serves as a second shelf) conceals the fully integrated sump.

- Sump is fully integrated and leak-proof - features a 32-L capacity.
- Recessed channels in the shelf and base help direct spills to the back of the cabinet and down into the sump.
- Base/Sump shelf lifts up for easy cleaning of incidental spills.
- Includes 4 x pre-formed vent locations at the back of the cabinet.
- Note: Incompatible liquids must be segregated to avoid disastrous explosions or fire.
