

# Portable Wall Mount Group Lock Box (15 Lock Capacity)

## Product Images

## Description

Group Lock Box with Wall Mounting Bracket helps facilities manage the placement and movement of group lock boxes for safety and staff protection.

- 430-grade stainless steel with heavy-duty powder coating withstands outdoor elements and is highly resistant to corrosion.
- Locking mechanism for optional securing of the box to the mounting bracket prevents unwanted box removal from the wall.
- Ability to store up to 15 safety padlocks inside the lockbox makes it perfect for small to medium lockouts.

- Collapsible carrying handle allows the box to transport locks to isolation points during lockout or be used as a portable lockbox.
- Rewritable tags on both the lockbox and bracket provide areas to communicate job-related information.
- The impact-resistant window offers visibility to stored padlocks and secured key(s) during lockout.
- Features 8 lock holes for easy application and organisation of padlocks or lockout hasps.
- 4 key hooks keep keys and key numbers visible during lockout.
