

ZOLL Automated External Defibrillator (AED) Plus

Product Images

Description

When the Fully Automatic AED Plus detects a shockable heart rhythm, it delivers the shock on its own – there is no need for the rescuer to push the shock button.

- After analysing a shockable rhythm the device counts down from 3 using visual and audio prompts and then informs the rescuer that a shock has been delivered.
- The system is Fully Automatic.
- Allows the rescuer to focus solely on delivering effective CPR using ZOLL's Real CPR Help® technology (a CPR feedback tool that is able to see what you are doing and provide feedback to help you do it well).
- Audio and visual prompts help you rescue with confidence and clarity unmatched by any other AED.
- Size: 340mm x 300mm x 300mm

Includes:

- LCD screen showing voice prompt messages with step by step directions,
- Soft carry case,
- 10 x Type 123 Lithium Batteries (5-year shelf life),
- CPR-D accessory kit (including CPR Barrier Mask, Scissors & Gloves, a prep razor, towel & moist towelette),
- CPR-D one-piece electrode pad with Real CPR Help®,
- Access to ZOLL Online Learning,
- First-aid directions & instructions on the defibrillator body.
