

Cable Safe Mats

Product Images

Description

Cable Safe is designed to protect cords and cables from foot and wheeled traffic and to prevent the trip hazard from these also.

- Nitrile Rubber backed mat with a Nylon top.
- Specially formulated non-skid backing reduces mat movement on flooring.
- Wide cut-out channel on the underside of mat allows cables to pass through.
- Tight groove holds cables securely in place to eliminate trips on power cords.
- Durable Nitrile Rubber underside protects cords from damage from foot and wheel traffic.
- Easy to clean - can be hosed, machine washed or vacuumed.
- Chevron safety border option warns people of hazard.
- Two mats in one - incorporates a Cable Protector and an Entrance Mat in one.
- Mat thickness: 14mm
