

Hi-Vis Drum Barrier Reel

Product Images

Description

These lightweight Barrier Reels are ideal for ensuring staff and visitors are clear of workplace hazard zones such as delivery bay doors.

- Mount 2 Reels on each side of your Facility's bay doors, and use the clipping system to attach the reel webbing to a vehicle's hanging rail.
- The barrier bracket design allows for 180° swivel action.
- Stainless steel spring for use externally in warehouses etc.
- 23m of webbing with standard S/S safety catch.
- Slow tape return mechanism (2.5m per second).
- Also available in Yellow/Black webbing.
- The casing is manufactured from lightweight ABS plastic.
- Includes a steel wall mount bracket.
- Great for internal and external uses.
- Reel dimensions: 220mm(L) x 200mm(W) x220mm(H).
- Webbing dimensions: 23m(L) x 48mm(W)
- Weight: 6.5kg (including bracket).
- **1 x Receiving bracket (A4438) is included** with the barrier reel. Additional receiving brackets are available separately.
