

Hazard Marker Right Sign 225 x 450mm - Steel Flex Surface Mount

Product Images

Description

Hazard markers warn you that the road ahead is about to change direction because of a curve, steep descent, obstacle (for example, a traffic island or roundabout) or obstruction (for example, the end of a cul-de-sac). Hazard markers tell you the direction to take when approaching the obstacle or driving past the hazard. You must obey these signs.

Steel-Flex® is the most durable roadside delineator post available. It is roll-formed from a special grade of high-performance spring steel, then protected by an ArmorGalv® thermal diffusion galvanised coating. Each post is then powder coated to provide a high gloss, UV resistant colour finish. Steel-Flex® is available in a wide range of colours and can be fitted with any delineation you require. Its unique design and manufacturing process gives Steel-Flex® exceptionally high corrosion resistance, even after being impacted.

- Ideal for concrete pavements

- Returns to vertical after repeated impacts
- Will not dislodge on impact
- High impact resistance
- Will not fade or discolour
- Life expectancy of 15 + years
- Fire resistant
- Quick and easy to install
- Significant cost savings
- No sharp edges
- **Made in Australia**

Australian Standard AS 1742.2 and AS/NZ 1906.1
