

Red Class 2 Engineer Grade Reflective Tapes

Product Images

Description

Bronson Safety's Engineer Grade Class 2 Reflective Tapes are 100 times brighter than standard marking tapes and paints. Suitable for various applications, including vehicle markings, traffic control signage or for general workplace safety. Weatherproof and durable, they are designed to last for up to 7 years in all indoor and outdoor environments.

- Self-adhesive vinyl sticks to any smooth, dry, dirt-free area and conforms to curved or angled surfaces.
- High visibility for night time and low light conditions.
- Up to 100 times brighter than regular marking tapes and paints.
- Suitable for bollards, barricades, machinery and hazard areas which require added visibility.
