

Orange Bulldog™ Traffic Cones

Product Images

Description

These Bulldog Traffic Cones are specifically designed for day and night highways and council works. These cones will not fade in harsh Australian conditions.

- Reflective Sleeves Available: White, Fluoro Green, Red or Blue.
- Product Sizes & Weights:
 - 300mm = 0.8kg
 - 450mm = 1.6kg
 - 700mm = 3.2kg
 - 900mm = 5kg
- Product Bases:
 - 300mm = Orange Base
 - 450mm, 700mm & 900mm = Black Rubber Base

Product Notes:

- UV stabilised premium quality PVC construction ensure industry leading durability and toughness.
- All Bulldog Cones comply with Australian Standard AS 1742.3-C 2002 Section 3.9.1.
- Cones include unique **levelling feet for** additional stability on uneven surfaces.
- 300mm & 450mm traffic cones are suitable for low speed urban and rural roads.
- 700mm & 900mm traffic cones are suitable for highways and other applications.
- Suitable for day or night use - For nighttime applications, cones must be equipped with reflective sleeves.
- Reflective Sleeves are **Premium Orafol (Reflexite) Reflective Cone Sleeves**. Orafol is the world leader in retro-reflective materials. Their traffic cone collars have been approved by every state road authority in Australia.
