

GravityFlo™ Eye Wash Station 35L capacity

Product Images

Description

This GravityFlo™ Eye Wash Station is a gravity-fed station that is compact and portable. Offers an ideal solution for remote worksites or facilities where plumbed water sources are not readily available or are in limited supply.

- This Eye Wash Station complies with Australian Standard AS 4775-2007.
- **Dual Soft Spray heads remove hazardous materials** from the eye without causing further damage.
- Fill Station with clean potable water and water preservative (not included, sold here).
- Water preservative will **prolong the life of the water for up to 120 days**, making it a valuable addition.
- This station is **easy to set-up and install** - installation manual included.
