

Uvex Ultrasonic Anti-Fog Scratch Resistant Safety Goggles

Product Images

Description

The combination of hard and soft material components with the uvex ultrasonic combines high mechanical rigidity with maximum wearer comfort – These goggles never press or pinch even when worn continuously. Flexible soft component adapts to the wearer's face and ensures full side protection for the eye area, including for those who wear glasses. The uvex ultrasonic has excellent ventilation, making sure that the climate around the eyes is pleasant and non-irritant. A sporty design, a wide panoramic field of vision, and quickly and easily replaceable lenses further underline the advantages of these top goggles.

- Rigid frame means much lower profile than other goggles - this means it works very well with hard hats.
- 100% UV protection up to 400nm covering UVB and UVA rays
- Supple, non-allergenic TPE naturally moulds to individual face shapes

- Concealed ventilation reduces moisture build-up, aids airflow for a pleasant, non-drying wearing experience
- Dust and splash resistant
- Can be worn over most prescription glasses
- uvex supravision excellence coating (anti-fog inside, anti-scratch outside)
 - Patented hydrophilic anti-fog coating actually absorbs moisture into the lens – providing much longer performance – even after repeated cleaning.
 - Uvex anti-scratch nano technology offers extreme scratch and chemical resistance in even the toughest Aussie conditions
- AS/NZS 1337.1 Medium impact protection
 - Will withstand the impact from a 6mm ball travelling at up to 45 meters per second without cracking, detaching or dislodging, breaking or coming into contact with the eye or the head.
- **Made in Germany**
