

Uvex Pheos Amber Lens Safety Glasses (Black/Yellow Arms)

Product Images

Description

The uvex pheos is not just a pair of safety glasses: with its modern, fashionable looks, the uvex pheos is a good-looking accessory at work. Innovative safety spectacle technology lies behind the attractive design: The heart of the glasses is the duo-spherical lens that does not just offer a wide field of vision, and coated with high-quality uvex supravision coating technology. **Amber lenses** are very effective in "blue light" environments such as LED and fluorescent lighting. Amber lenses in these kinds of environments enhance contrast and depth perception making them helpful for work where small details are important.

- Modern safety spectacles with a fashionable design and duo-spherical lens technology
- No metal parts
- Standard version
- Soft, non-slip earpieces (uvex duo component technology) prevent pressure points

- Very large field of vision
- Can be easily combined with other worn PPE
- uvex supravision excellence coating (anti-scratch outside/anti-fog inside)
 - Patented hydrophilic anti-fog coating actually absorbs moisture into the lens – providing much longer performance – even after repeated cleaning.
 - Uvex anti-scratch nano technology offers extreme scratch and chemical resistance in even the toughest Aussie conditions
- Approved to AS/NZS 1337.1 - medium impact protection
 - Will withstand the impact from a 6mm ball travelling at up to 45 meters per second without cracking, detaching or dislodging, breaking or coming into contact with the eye or the head.
- **Made in Germany**
