

Uvex Unidur 6659 Foam Cut 5 Protection Gloves

Product Images

Description

The uvex unidur 6659 foam are lightweight cut protection gloves (Level C) with NBR foam coating. Yet the glove offers a high level of sensitivity. It is perfectly suited to precision assembly work requiring tactility and cut protection.

- Dirt-resistant universal safety gloves ideal for mechanical tasks
- A combination of moisture repellant aqua polymer and robust Nitrile Butadiene Rubber (NBR) foam coating produces a glove with high mechanical abrasion resistance
- Secure grip in dry and slightly damp environments
- High breathability
- The comfortable slim-fit design provides a very good tactile feel when assembling smaller workpieces
- Free of harmful substances in accordance with OEKO-TEX® Standard 100
- EN388:2016 (4122X)
