

VeriShield Hi-Vis Headband Earmuff 32dB Class 5

Product Images

Description

Provides superior hearing protection in a lightweight design. Hearing protection devices are only effective when worn, so comfort is essential. VeriShield fits a wide range of head sizes, have a wide cup opening with memory foam ear cushions, and cushioned headband.

The attenuation level of each style is marked on the earmuff cup, for quick and easy on-site identification of the level of hearing protection provided. Traditional-style earmuffs with an adjustable cushioned headband.

Features:

- Large dimension range: Comfortably fits a wide range of head sizes. 17% more adjustable than earlier versions
- Lightweight cushioned headband: Steel-wire construction with a padded headband and precision micro adjustments designed for just the right fit around the ear
- Memory foam ear cushions: New unique memory foam that combines denser and softer foam than previous models, for greater comfort and attenuation. Reduces squeezing pressure on the head and enhances comfort
- Robust construction: An oil-resistant cup surface to withstand oily, heavy-work environments and frequent cleaning. ABS molded with internal baffle design for lighter weight, patent pending
- Wide cup opening: Ideal for workers with larger ears, or who wear hearing aids. The opening area of the cup increased by 16% over earlier versions

Applications:

- Construction
- Manufacturing
- Medical
- Oil and Gas
- Utilities

Specifications:

- Class: 5
- Attenuation: 32dB
- Headband Style: Over-Head
- Hi-Visibility: Yes
- Earmuff Construction: Plastic
- Other Material: Steel, PU Foam & PU Leather
