Changed Traffic Conditions Ahead Swing Stand Sign

Product Images

Description

This swing stand offers an economic solution to road management signage.

- The frame is made from rugged hot-dip galvanised steel which prevents rust in the frame and wells fixing bolts.
- Plastic end caps on the frame provide a professional finish and prevents water from being retained in the frame.
- The 900mm x 600mm sign is manufactured from Colorbond Steel with Class 1 Reflective material.
- Perfect for outdoor use in day or night conditions.
- The sign can be easily attached or removed from Swing Stand when bolts are screwed/unscrewed.
