

Skipper™ Post and Base System

Product Images

Description

The Skipper™ Post and Base System is the perfect complement to the Skipper™ 9m Retractable Barriers.

Combine with the Skipper™ 9m Retractable Barriers to create a post with retractable belt.

The Skipper™ Post and Base System sleek design looks professional in any environment, both indoors and outdoors.

The base can be bolted down and also filled with water or sand for improved stability. The post is twist-locked

into position. The Skipper™ 9m Retractable Barrier or Skipper™ Post Cap attach to the top of the post with a secure, snap fit.

The PPE Dispenser, Recycle Bins and Sanitiser Bracker can also be attached to the post via the Skipper™ Post Collar, making it one of the most versatile products in the Skipper range.

Safe and efficiently store and transport your Skipper Post and Base system using the purpose built [Skipper Unicart Trolley](#).

Connects to:
