

Andatech Sentry Handheld Workplace Breathalyser

Product Images

Description

Baton style handheld breathalyser for quick on-site breath alcohol tests of up to 12 tests per minute. No mouthpiece required. Built-in LED light doubles as a traffic wand and flashlight for low lighting environments. The built-in magnet makes the breathalyser attachable to vehicles and other metal structures to prevent drop damage. Easily export your employees' breath alcohol data to a PC with the USB cable.
