AR526 Spill Scooter

AR527 Spill Scooter Handle Only

AR526 Spill Scooter + AR527 Handle combined

Description

Dispensing drums while transporting them around the plant is no longer a problem thanks to our Spill Scooter. The Spill Scooter provides secondary containment for incidental spills and drips which often occur during vertical dispensing applications.

Product Notes:

- Incidental spills and drips are contained in the well.
- 100% polyethylene.

- Won't rust or corrode.
- Spout for easy draining.
- **Fits all drums up to 205 litres.**
- Height: 220mm x Diameter: 88mm
- Sump Capacity: 41L
- Weight: 10kg
- Scooter handle is also available for ease of use.
