

Oxford Plastics SupaGrip® SafeKerb Ramp

Product Images

Description

This Oxford Plastics SupaGrip® Ramp is suitable for wheelchairs, pushchairs, mobility scooter, bicycles and foot traffic. Ramp can be utilised to provide stable access to/from kerbs, roads, shops, storefronts or public buildings etc.

- The SafeKerb Ramp complies with and exceeds the 'Wheel Chair Boarding Ramp Specification', 'Safety at Streetworks Code of Practice' and 'Disability Discrimination Act' (DDA).
- Adapts to varying kerb or step heights (60mm to 160mm).

- Anti-slip and hi-vis surface featuring anti-slide technology on the underside and edges.
- Featuring Oxford Plastic's patented Flexi-Edge technology to reduce unwanted movement.
- Bolting not required - stable with or without. However, it can be bolted for additional security.
- Edges are made from a soft, flexible, rubber material which grips the surface and reduces unwanted movement.
- Rubber edges can be replaced if worn over time.
- Capacity of up to 350kg.
- Product is compact and stackable for easy handling.
- 100% recyclable High-density polyethylene (HDPE).
- Designed and manufactured by specialist engineers in the UK.
- Length: 1282mm x Width: 760mm
- Weight: 10kg
