

Cable Protector 2500mm long

Product Images

Description

The Cable Protector is a heavy duty plastic cover which is designed to protect cables from damage by foot and light wheeled traffic. It sits flat on the floor and will not curl or cause a trip hazard in the workplace.

- Effective on tiled or carpeted areas.
- Tough, long-lasting poly material will stand up to heavy pedestrian traffic over long periods.
- Can hold up to 3 electrical cables or up to 9 comms cables.
- Can be cut down to form smaller lengths using a stanley knife.
- 58mm(W) x 20mm(H) x 2500mm(L)
- Centre Channel Size: 20mm(W) x 12mm(H)
- Constructed from durable PVC.
