Product Images

Description

A disposable, premium cup respirator with exhalation valve and charcoal layer filter for **nuisance level acid gas and**

odour relief.

- **1 Qty = Box of 20 Respirators.**
- Certified to AS/NZS 1716:2003 Licence No:1134
- Approved for **10 times the exposure standard** of dust produced by grinding, drilling, certain applications of brazing and welding etc.
- Shaped for a better fit when worn in combination with eyewear.
- Exhalation valve increases wearer comfort in hot or humid workplaces.
- The charcoal layer provides relief from nuisance levels of acid gases.
- Low breathing resistance encourages longer wear time by improving wearer comfort.
- Humidity resistant and hypoallergenic filter for faster evacuation of carbon dioxide and moist air and maximum respirator service life.
- Durable and latex-free suspension straps will eliminate pre-stretching.
- Staples do not penetrate filter medium, Willtech boomerang nose seal provides better wearer's comfort.
