

Advantage Respirator Filters

Product Images

Description

The Advantage® filter line is a complete line of particulate, chemical and combination cartridges.

- Provides the best in light-weight and high-performance filters.
- Crafted for easy installation and strong protection.
- Advantage Respirator Cartridges use a bayonet-style design for easy mounting.
- Comes with low-lug height and lead-in connectors.
- The cartridges lock into place with only a single twist.
- Filter Cartridges are for use with the Advantage 200 LS, Advantage 420 and Advantage 3200 Respirators.
- Read the product labels carefully to ensure the correct filter is purchased.
