

# Bike Rack Circular - Base Plate

## (Stainless Steel)

### Product Images

### Description

This compact Circular Bike Rack is simple to install, unobtrusive and blends in with most other urban facilities.

- One bike can be parked on each side.
- More compact and appealing in appearance than the Inverted 'U' or square bike racks.
- Engineered to withstand heavy use.
- Easy to install on most ground surfaces, including concrete, brick and bitumen etc.
- Suitable for public and private areas.
- Designed in accordance with Aus-roads recommendation to allow easy locking.

\*This product is considered extremely bulky – Additional freight charges may apply for customers in regional

areas or who require delivery by tailgate truck.
