

RRPM Heat Adhesive Pads

Product Images

Description

These heat adhesive pads allow Bronson Safety Raised Reflective Pavement Markers (RRPM) to stick to any surfaces.

- Hot poured adhesive consisting of selected bitumen and fillers.
- Ideal for concrete and asphalt applications.
- This long-life adhesive is extremely durable.
- Non-toxic and unaffected by acids and alkalis.
- Remains adhesive in all weather - wet, cold, dry, windy etc.
- Apply by hot melting to the road surface, place RRPM on adhesive immediately after melting.
- Dark grey/ black to match road surfaces.
- Easy to use
- Do not place on areas contaminated with solvents, oils or greases.
