Short Description

Marking Dots – Car Park Markers

Description

These Marking Dots offer great permanent or temporary marking for any application that requires durable marked lines.

- They are perfect as line marking for car park spaces.
- Can be used on grass, bitumen seal, road base, compacted gravel, hot mix and concrete surfaces.
- Guaranteed to outlast paint markings on permanent surfaces by at least 8 times.
- No special expertise or machinery is required to use and place.
- Choose fixing Spike or Glue down, depending on the application surface. All Marking Dots include centre hole.
- Note: Glue not provided for glue down application. Glue [Installation Kit](#) is available separately.
- Spike measures: 125mm.
- Marker Diameter: 100mm.
