

Economy Retractable T Top Bollard Barrier Red/White

Product Images

Description

The perfect instant barrier to place on top of your T-Top Bollard. These retractable T-Top Bollard barriers are extremely tough and can be used extensively in both indoor and outdoor environments. Each tape unit is expandable to 9m in length and is 50mm wide. Easy to install to most standard T-Top Bollards with no tools required. Manufactured using injection moulded, heavy-duty polypropylene material, they are solvent, corrosion, and chemical resistant and are UV rated for indoor & outdoor durability.

- **T-Top Bollard Mount:** 2 x Retractable T-Top Bollard Barriers are required to create a barrier.
- **Wall Mount:** 1 x Retractable T-Top Bollard Barrier, 1 x A5206 Wall Mount Receptacle are required to create a barrier.
- Note: The T-Top Bollard Barrier is designed to suit most T-Top Bollards on the market. Due to the many designs and global manufacturers this may not suit all. We also recommend screwing the unit to the T-Top Bollard (screws not included).
