

Marine Grade Anti-Slip Paving Paint

Product Images

Description

The longest lasting anti-slip treatment available in Australia. Originally formulated for ocean-going yachts and now used extensively on the toughest outdoor applications in hospitals, schools, universities and any other facilities that experience extremely high foot traffic where slips and falls are not an option.

- Will double the effective life of most cheaper imitation treatments.
- **Made in Australia and complies to Australian Standard AS 4586:2013 with a slip rating of P5.**
- Can be applied using a brush or roller.
- 1L, 4L, 10L tins available in 8 colours: Terracotta, Clay, Russet, Slate, Lincoln Green, Ivory, Pewter & Clear.
- FINISH: Low-sheen.

COVERAGE: 7-8 square metres/litre on untreated smooth surfaces; 8 - 9 square metres/litre on sealed smooth areas. On rough surfaces allow more paint.

DRYING TIME: Touch dry in 2 hours.

RECOATING: Recoatable after 4 hours 25°C. Light traffic after 8 hours and 24 hours for normal use.

*Not recommended for vinyl flooring or tiles.
