

Flexi360 Marker Posts

Product Images

Description

- Premium quality HDPE post.
- Manufactured with extremely tough flexible joint means our posts can be hit by cars or be run over and still bounce back.
- Fully compliant to all Australian Standards and Australian State Road Traffic Authority Regulations.
- Post length: 1000mm
- Combine with our **numbers** and **letters** to create markers for Fire Hydrants and other services.
- NOTE: For a usable post, purchase either **Surface Mount Inline Plate** (for concrete applications) or **Picket Driver Anchor** (for asphalt and soil applications).
- **Made in Australia**
