

Traffic Lane Separators

Product Images

Description

Bronson Safety Traffic Lane Separators are used to effectively separate vehicles from changing one lane into another or entering into a restricted area.

- Suitable for both permanent or temporary applications.
- Traffic Separators are the perfect lane divider to guide traffic on roadways, exit ramps, car parks, cycle lanes, warehouses and underground passageways.
- Manufactured from heavy-duty rubber making them hard-wearing and ideal for all weather conditions.

- Modular interlocking design allows you to create variable lengths to suit any application.
- Tapered end caps ensure there are no hazards with exposed ends once the unit is installed.
- High visibility reflective tape on Black and Yellow Modules including end caps.
- **Bolts Not Included** - We recommend the **A4468 Sleeve Anchor Bolts** for concrete and the **A4918 Hilti Anchor Bolts** for bitumen applications.
- **Optional:** The **Flexible Black/Yellow Chevron Blade** is the ideal solution for directing traffic or the **Orange Flexible Post** can be added for increased visibility in low light and nighttime conditions.

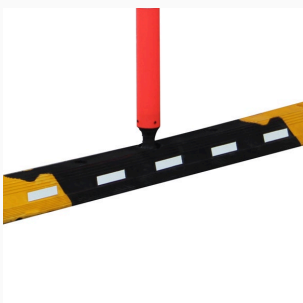

Dimensions:

- Module: 1000(L) x 250(W) x 85(H)mm 15kg (2 Bolts)
- End Caps: 500(L) x 250(W) x 85(H)mm 7.5kg (Each) (2 Bolts per Pair)
