Traffic Lane Separators

Description

Bronson Safety Traffic Lane Separators are used to effectively separate vehicles from changing one lane into another or entering into a restricted area.

- Suitable for both permanent or temporary applications.
- Traffic Separators are the perfect lane divider to guide traffic on roadways, exit ramps, car parks, cycle lanes, warehouses and underground passageways.
• Manufactured from heavy-duty rubber making them hard-wearing and ideal for all weather conditions.
• Modular interlocking design allows you to create variable lengths to suit any application.
• Tapered end caps ensure there are no hazards with exposed ends once the unit is installed.
• High visibility reflective tape on Black and Yellow Modules including end caps.
• Bolts Not Included - We recommend the A4468 Sleeve Anchor Bolts for concrete and the A4918 Hilti Anchor Bolts for bitumen applications.

• Optional: The Flexible Black/Yellow Chevron Blade is the ideal solution for directing traffic or the Orange Flexible Post can be added for increased visibility in low light and nighttime conditions.

Dimensions:
- Module: 1000(L) x 250(W) x 85(H)mm 15kg (2 Bolts)
- End Caps: 500(L) x 250(W) x 85(H)mm 7.5kg (Each) (2 Bolts per Pair)
