

Boot Dip Mat

Product Images

Description

If you are in the business of food processing you should have a foot dip mat at the entrance into your processing area.

- The goal is to disinfect the boot or shoe and kill the bacteria from the warehouse, street or office floor.
- Disinfectant mats are also useful in commercial farms and animal shelters to remove the transfer of disease to and from animals.
- Boot dip mats have walls to contain a disinfectant or detergent and thousands of rubber fingers to scrape dirt and contaminants from the soles of boots.
- Cleans and disinfects boots where cleanliness is of utmost importance
- Mat Dimensions: 980mm x 810mm x 47mm
